

Technical Information Roll Cork Underlay 2mm

Natural Sound, - Heat and Vibration insulation form Cork Resin

Material Thickness:	c. 2mm
Density:	c. 200 kg/ m ³
Mass per unit area:	c. 400 g/ m ²
Heat resistance:	0,041 m ² K/W
Electrical Conduction:	0,044 W/ mK
Underfloor Heating:	Suitable
Sub sonic noise improvement:	to 17dB
Measurement:	Roll Width 1m (Length 30 m or 20 m)
Roll Contents:	30 m ² / 20 m ²

Product Advantages:

- Universally applicable
- Also suitable for computer / media rooms
- Top Price / Performance Ratio
- Best performing underlay for use over underfloor heating.
