RGB LED LIGHTING

LED lighting allows you to create an extraordinary atmosphere in your interior that is conducive to any gaming entertainment. Several colours and 3 lighting modes allow you to adapt the lighting to your style, the climate of the game or the esports game.

Choose from 7 intense colours: blue, red, green, yellow, light blue, purple and white.

SIMPLE OPERATION

Simple operation of the light with the push of a button built into the tabletop - no risk of losing the controller.

Choice of fixed light option and 2 fantastic modes with spectacular colour changes.

INTUITIVE CONTROL PANEL

The intuitive control panel allows you to move from sitting to standing in an instant.

One-button control - return to your favourite settings with just one click.

Thanks to the settings memory, you can store up to 3 parameters of your choice.

The LCD display shows the height of your desk with an accuracy of 1 cm.

QUIET, PRECISE DRIVE

Electric desk height adjustment that doesn't interfere with your gaming session? With the Hero 8.2 you've got it guaranteed! The high-quality drive ensures smooth movement even with a tabletop load of up to 70 kg.

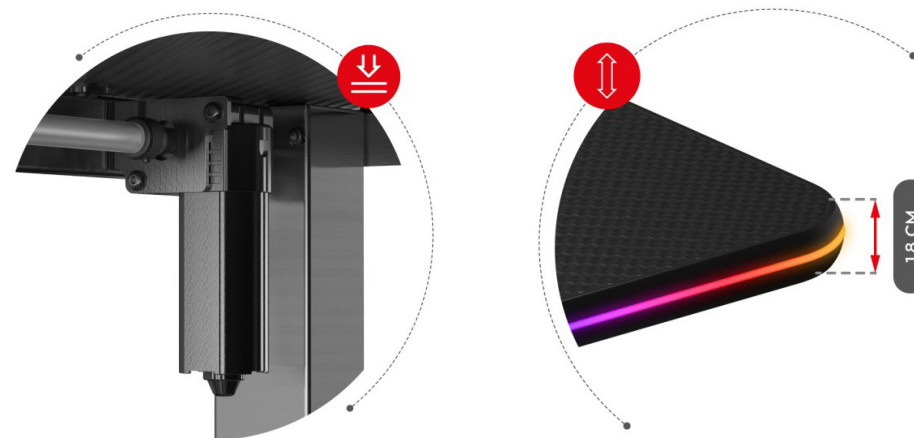

The quiet motor does not disturb your concentration when

ERGONOMIC ADJUSTABLE DESK HERO 8.2 RGB

The large height-adjustable top is ideal for working, studying and playing. The 120 cm wide top will accommodate all the necessary accessories. The classic shape with RGB lighting makes the Hero 8.2 electric desk suitable for both a teenager's room and the office.

DESK TOP WITH CARBON COATING

The adjustable desk made of top-quality materials is a guarantee of great durability. The 18 mm thick top provides stability even with a maximum load of 70 kg - on the Hero 8.2 desk you can easily place the necessary gaming equipment. The innovative Carbon coating underlines the gaming style of the desk and increases its durability - the top is scratch-resistant and easy to clean.

2 CABLE ENTRIES

No matter how much equipment you have on your tabletop, the cable inlets will help you keep your desk tidy. The cable openings are located on both sides of the tabletop, so you can arrange your equipment just the way you like it.

2 HOLDERS FOR HEADPHONES, BACKPACK OR BAG

The 2 functional holders on both sides of the desks allow you to organise your space as you like. Handy headphone holder - when you're not using your headphones, these don't take up space on your desk. The backpack or bag holder will make it easier to organise your space throughout the room. The handles located on both sides of the tabletop are an example of excellent ergonomics - the Hero 8.2 is a cool desk for both right and left-handers!
